TO WHOM SO EVER IT MAY CONCERN

This is to certify that 'RK Wind Mast' has supplied us with 3 Nos' of 120 meter lattice met towers along with complete instrumentation during the last one year. They have also undertaken the entire civil and erection works for all the masts. The supplier has completed all the civil works within a reasonable timeline and the quality of the work has been up to the mark. Our experience with 'RK wind' has been satisfactory and we have not faced any sort of issues related either with work or conduct of the vendor.
